

Rapskilian

Star Citizen, Project Zomboid and survival games, with more explosions than planned.

Rapskilian is a Swiss gaming creator making Star Citizen patch breakdowns, ship reviews and gameplay, alongside co-op survival series with friends. The channel is built on entertainment first: honest opinions, a lot of failed PvP, and an audience of PC and space sim players who follow the game closely.

YouTube channel figures as of 2 October 2026. Current numbers are shown live at rapskilian.com.

What the channel covers

Star Citizen news

Patch breakdowns, datamined features and what each update means for players.

Gameplay and ships

Ship reviews, piracy runs, VR sessions and things going wrong in space.

Survival and co-op

Project Zomboid, RimWorld, Satisfactory and No Man's Sky with friends.
